Market intelligence

Market intelligence is the information relevant to a company's market - trends, competitor and customer (existing, lost and targeted) monitoring, gathered and analyzed specifically for the purpose of accurate and confident decision-making in determining strategy in areas such as market opportunity, market penetration strategy, and market development.[1] Market intelligence includes the process

Search Post/ Logout

- ▶ Search post using post title

- ▶ Logout from post admin panel

A screenshot of a web interface for managing posts. It features a search bar with the placeholder text 'Search By title', a blue 'Search' button, a dropdown menu showing '10 Pages', and a blue 'Logout' button. Below these elements, there is a date '2020-10-13' and a pagination indicator '1/1 pages' with a settings icon (gear and 'x').
